

MAYOWA BINUYO

Full stack Software Engineer | C#/.NET | Java | React | PostgreSQL

📍 Lagos, Nigeria 📞 +234 705 083 5448 ✉ binuyomayor16@gmail.com [LinkedIn](#) [GitHub](#) [Portfolio](#)

PROFESSIONAL SUMMARY

Full Stack Software Engineer with hands-on experience designing, developing, and maintaining scalable web applications using C#, ASP.NET Core, React, Java, PostgreSQL, and RESTful APIs. Skilled in backend architecture, authentication and authorization, database design, third-party API integration, and modern frontend development. Experienced in building enterprise financial applications, internal business systems, and academic platforms with a focus on secure, scalable, and maintainable software solutions.

TECHNICAL SKILLS

Languages: C#, Java, JavaScript, SQL

Frameworks: ASP.NET Core, .NET, React, JavaFX, Entity Framework Core

Databases: PostgreSQL, SQL Server, MySQL

Backend: RESTful APIs, JWT Authentication, Entity Framework Core, Socket Programming, Third-Party API Integration,

Frontend: React, HTML5, CSS3, Tailwind CSS

Tools: Git, GitHub, Docker, Postman, Swagger/OpenAPI, Cloudinary

PROJECTS

Wallet Service — Full Stack | Java Spring Boot · React · MySQL · Docker · JWT Authentication · REST APIs

Designed and developed a secure full-stack digital wallet platform enabling user authentication, wallet management, deposits, withdrawals, transfers, and transaction history. Built RESTful APIs with JWT-based authentication and role-based authorization, integrated a responsive React frontend with the backend, containerized the application using Docker, and implemented robust database design, validation, and error handling to deliver a scalable and maintainable financial solution.

Academic Resource Hub — Backend | ASP.NET Core · PostgreSQL · Cloudinary · Auth0 · REST APIs [GitHub ↗](#)

Solely developed the backend architecture for a collaborative academic resource-sharing platform. Designed and implemented secure RESTful APIs, JWT-based authentication and authorization, PostgreSQL database models, Cloudinary media integration, and business logic for secure resource sharing, providing a scalable and maintainable backend foundation.

Java Mini Chat Application | Java · JavaFX · Socket Programming · Multithreading · OOP · TCP/IP

Built a real-time multi-client desktop chat application using Java Socket Programming and multithreading. Implemented a client-server architecture with concurrent client handling, message broadcasting, thread-safe communication using CopyOnWriteArrayList, and a modular architecture separating networking, server, client, and shared components to support future JavaFX integration.

PROFESSIONAL EXPERIENCE

Software Engineer — GlobalPay NG Ltd (NYSC) Lagos, Nigeria | 2025 – 2026

- Implemented frontend pagination integrated with backend pagination APIs to improve performance and scalability for high-volume transaction processing.
- Designed and implemented backend services for bank account verification by integrating with the Interswitch API to validate account numbers and retrieve account names before transaction processing.
- Consumed and integrated RESTful APIs for financial operations and internal business workflows.
- Diagnosed and resolved production issues, including API failures, timeout errors, and frontend/backend integration problems.

Backend Developer · Capstone

May 2025 – Jun 2025 Remote, Nigeria

- Built secure RESTful APIs with ASP.NET Core for an academic resource-sharing platform serving multiple user roles.
- Implemented user authentication system with hashed passwords and conditional school email validation for security.
- Integrated Cloudinary API for media uploads, enabling seamless file handling across the platform.

Intern — Web Developer & Technical Trainer · Digital World Tech Academy

Apr 2024 – Sep 2024 Lagos, Nigeria

- Trained 30+ new recruits on web development fundamentals and MS Office, reducing onboarding time significantly.
- Assisted in debugging and content updates across multiple active projects, ensuring timely delivery.

EDUCATION

B.Sc. Computer Science · University of Ilorin

Graduated August 2025 Ilorin, Nigeria
